

FlowChat Product Guide

Every conversation in flow.

Premium guide to Chat, Contacts, Marketing, Documents, Settings, Analytics, LeadSnapper, WhatsApp Automation, and Lead Monitor — from lead capture to close.

MUTEX FLOW PLATFORM

One journey across every module

Find leads → manage in CRM → converse on chat, WhatsApp & email → close with Documents.

UNIQUE SELLING POINTS

Built for the full customer journey

Twelve differentiators across messaging, CRM, marketing, documents, and ecosystem siblings.

USP 01

Omnichannel messaging hub

One shared inbox for website chat, email, WhatsApp, and social.

USP 02

True multi-tenant SaaS

Accounts, roles, inboxes, and automation isolated per tenant.

USP 03

End-to-end Flow journey

LeadSnapper / Lead Monitor → CRM → chat/email/WA → Documents.

USP 04

LeadSnapper → CRM sync

Maps & Search capture with Hot/Warm/Cold scoring into Flow.

USP 05

BYOK enrichment, staged apply

Review provider suggestions field-by-field — no blind overwrites.

USP 06

Global company registry

Auto-link contacts by corporate email domain.

USP 07

Campaign-only email marketing

No accidental sends; test-send gate; admin launch.

USP 08

Marketing compliance built-in

Unsubscribe, List-Unsubscribe, bounce & complaint suppression.

USP 09

Tenant-owned senders & AI

Connected services for ESP and AI keys.

USP 10

Documents in the same tenancy

Quotes/invoices with brand, verify tokens, and QR.

USP 11

WhatsApp CRM sibling

Pipelines and broadcasts with SSO and contact sync.

USP 12

Lead Monitor intent feed

Verified intent leads continuous into CRM.

SHARED INBOX

Live chat inbox for every conversation

What it's for: One place to see, assign, prioritize, and resolve website and channel conversations.

Conversation list & filters

Open, pending, resolved, snoozed — by assignee, label, priority.

Assignment & teams

Route chats to the right agent or team.

Labels & notes

Tag conversations; private notes for internal context.

Lifecycle & CSAT

Standard chat lifecycle with satisfaction collection.

Shared inbox

Conversation thread

CONVERSATION · WIDGET · CHANNEL

Chat surfaces your customers actually use

What it's for: Agents work the timeline; visitors chat via branded widget; inbox config controls the channel.

Integrations

REPORTING

Conversation & agent performance

What it's for: Understand volume, response speed, and agent performance to coach teams and improve CX.

Conversation metrics

Volume and outcome trends.

Agent performance

Workload visibility.

CSAT foundations

Satisfaction reporting where enabled.

Ops decisions

Staffing and process insight.

CHROME EXTENSION

LeadSnapper — capture & sync leads

What it's for: Scan Google Maps/Search, score Hot/Warm/Cold, enrich owners, push into Flow CRM.

Maps / Search scrape

Capture local and B2B leads fast.

Scoring

0–100 with Hot / Warm / Cold.

Owner enrichment

UK/US lookup provider order.

Flow CRM sync

Push via Sync tab + API keys.

WHATSAPP AUTOMATION

WhatsApp CRM for pipelines & broadcasts

What it's for: Shared WA inbox, pipelines, and broadcasts — SSO and contact sync with Flow.

Shared WA inbox

Assign and resolve WhatsApp chats.

Pipelines

Move opportunities through stages.

Broadcasts & templates

Compliant outbound WA campaigns.

SSO + CRM sync

One identity; contacts stay aligned.

WhatsApp Automation

Shared WhatsApp CRM for sales & support

Connect WhatsApp Business into the Flow journey — pipelines, broadcasts, templates, and contact sync with Flow CRM.

Shared inbox & assignment
Route chats to agents and teams with ownership and status tracking.

Pipelines & broadcasts
Move deals through stages and send compliant broadcast campaigns.

SSO into Flow
One identity across FlowChat, CRM, and WhatsApp CRM.

Contact sync API
Keep WhatsApp contacts aligned with Flow CRM records.

Inbox - Open conversations Live

Pipeline - Qualified leads 12

Broadcast - Weekend offer Queued

Template - Order update Approved

Sync - Flow CRM contacts OK

SSO - Mutex workspace Active
